SUSTAINABILITY

WE ARE COMMITTED TO THE ENVIRONMENT

LEED, or leadership in energy and environmental design, is changing the way we think about how buildings and communities are planned, constructed, maintained and operated. LEED works for all buildings from homes to corporate headquarters at all phases of development. Projects pursuing LEED Certification earn points across several areas that address sustainability issues.

McCCrann Cyrus is continually looking for new and innovative products with the goal of reducing our overall impact on the environment by incorporating as many green initiatives as possible. Many of our products are currently manufactured with various levels of recycled content taken from both post industrial as well as post consumer recycled material and our manufacturing facility embraces all environmentally friendly protocols and recycling programs. We also work diligently with the carpet manufacturers to utilize their recycle programs.

RESIDENTIAL CUSTOM CARPETS

Creating exquisite handcrafted custom area rugs with uncompromising attention to quality and service

Looking for something unique?

McCrann Cyrus offers a vast portfolio of traditional, modern and contemporary designs for you to choose from. Your custom carpet can be made in any size or shape to work in your space. We have the knowledge and resources ready to put to work for you!

COMMERCIAL CUSTOM CARPETS

Create an air of distinction in a lobby, office or boardroom with a one of a kind carpet...

Commercial spaces need not be generic!

McCrann Cyrus custom carpets can be designed to suit any setting, incorporating design with functionality. We offer full design services to help you create a signature unlike any other!

BRANDING & LOGO CARPETS

The aesthetic way to showcase your brand at first glance

Have a carpet made to any size or shape, creating a timeless look that matches perfectly with your design scheme and decor. Choose from a wide variety of quality products to get your desired look without sacrificing function.

Our State of the art technology allows us to be a world apart from the standard ordinary dyed area rugs. McCrann Cyrus' CNC technology creates logos with unparalleled detail and clarity. We CNC cut and heat weld your logo right into your custom designed carpet. Our vast pallet of color options ensures the integrity of your logo is captured.

MARINE CARPETS

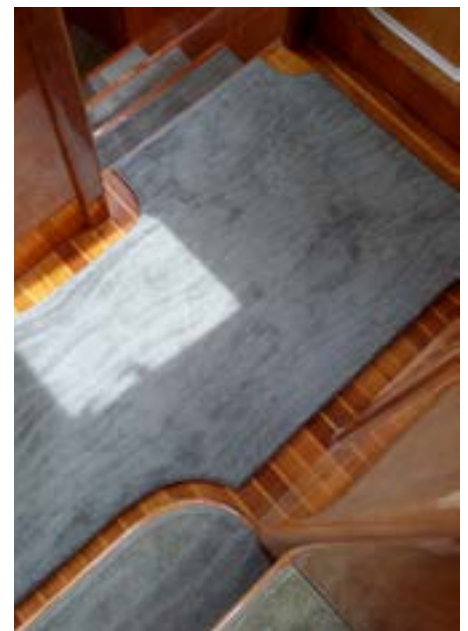

We supply custom, premium quality carpet for indoor or outdoor applications on your boat.

INDOOR CARPETS

Made from a wide variety of premium nylon and wool carpets in an extensive selection of styles and colors. Add the boat name or a custom design for a unique signature to your vessel.

OUTDOOR CARPETS

Made from 100% polypropylene carpet that is mold, mildew and UV resistant with an Aqualoc non-slip backing that will not stretch, rub off or harm your boat deck. Any carpet can be created in a custom shape or size, as well as snap-in mats. We use state of the art equipment for cutting and inlaying your boat name or other designs.

SOFT SEATING AREA RUGS

Beautiful, functional, inviting & warm

A custom carpet can be made to suite any setting, incorporating design with functionality. We offer full design services to help you create a signature unlike any other.

- Soft seating carpet has been used in office and hospitality waiting areas for years and is now catching on in malls around North America.
- Malls, hotels and offices desire to better serve their clients with comfort and without stress.
- Shopping centers with soft seating areas provide a comfortable place to rest, which allows shoppers to keep shopping longer.
- The alternative to a McCrann Cyrus System is usually highly expensive, lacking in flexibility and causes the mess of gluing carpet to the floor.
- McCrann Cyrus soft seating systems offer a functional option that can be removed, stored and laid out again using existing staff.

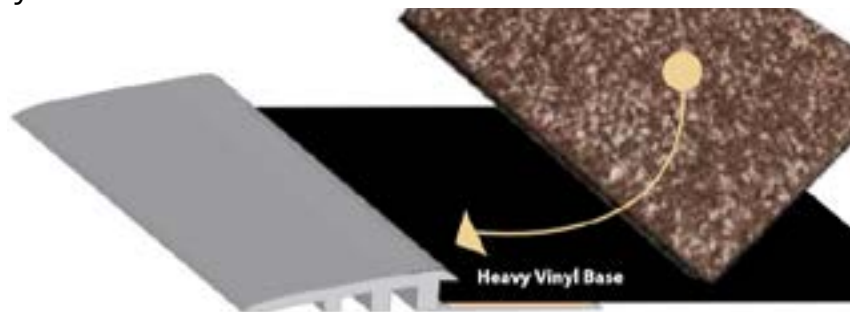

CARPET TILE TRAY SYSTEM

Create a area rug from carpet tiles using the Tray System

The Carpet Tile Tray system allows you to create an area rug or entry mat using carpet tiles without gluing the tiles to the floor, affording you the ability to relocate the rug without any damage to your existing flooring or to change tiles, as desired.

- Trays are 100% waterproof.
- Showcase your brand by adding your company logo or create a custom, one of a kind design to work with any decor style.
- The trays can be repositioned easily.
- Will not react to any floor and requires no cleanup upon removal.
- Allows implementation of unlimited selection of carpet tiles in many styles and colors.

TRAY EDGING:

- Edging complies with American Disability Act (ADA) requirements for general accessibility and safety.
- Available in 5 colors and two heights to accommodate most carpet tile selections.
- Made from flexible PVC, we use various types of plasticizers to meet specific needs, such as renewable non-phthalate.

BASIC EDGE FINISHING

STANDARD BINDING

THE MOST ECONOMICAL WAY OF FINISHING YOUR AREA RUG

- Edged using scotch guarded polypropylene binding tape.
- Available in over 150 colors to match any carpet color and style.
- Very durable, great for residential use.
- Can be used as an edge finishing for carpet base.

SERGING

A TASTEFUL OPTION THAT CREATES A SOFT, HIGH END FINISH TO ANY CARPET

- Serging resembles a hand-sewn look and creates an elegant finish.
- Available in nylon or wool.
- Great for residential use.
- Available in dozens of different colors.

DESIGNER EDGE FINISHING

STITCHING STYLE: TOP STITCH
FABRIC: COTTON
Available in 1.5" - 2" top exposure

STITCHING STYLE: BLIND STITCH
FABRIC: COTTON
Available in 0.5" - 3" top exposure

STITCHING STYLE: BANDERA
FABRIC: SYNTHETIC LEATHER
Available in 3" - 5" top exposure

A unique and easy way to tie in the design elements of a room. Designer edge finishing creates a custom bordered look that gives any area rug a timeless design.

Designer binding is available in three different stitching styles: Top Stitch, Blind Stitch and Bandera. We offer lines of cotton, synthetic leather, linen and real leather to give you a variety of textures to choose from. All of these lines come in a variety of colors. You can color match your carpet or choose a color with a nice contrast.

SPECIALTY EDGE FINISHING

TAPESTRY EDGING

Tapestry borders give your rug an old world charm as well as create a beautiful focal point in any room.

Choose from either our wide selection of pre-made tapestry borders in a number of different widths, or provide your own upholstery fabric that co-ordinates with furniture or window coverings.

FRINGING

Refresh your old rugs or add elegance to your new ones with cotton fringing. Fringing dresses up your rug and will bring your old carpet back to life!

Special order fringes are available in cotton, wool or nylon, many colors to choose from.

FRINGING #1

WHITE GREEN BROWN

FRINGING #5

AVAILABLE IN THE SAME COLORS AS FRINGE #1

FRINGING #2

NATURAL KARISTAN BEIGE

FRINGING #6

AVAILABLE IN THE SAME COLORS AS FRINGE #2

FRINGING #7

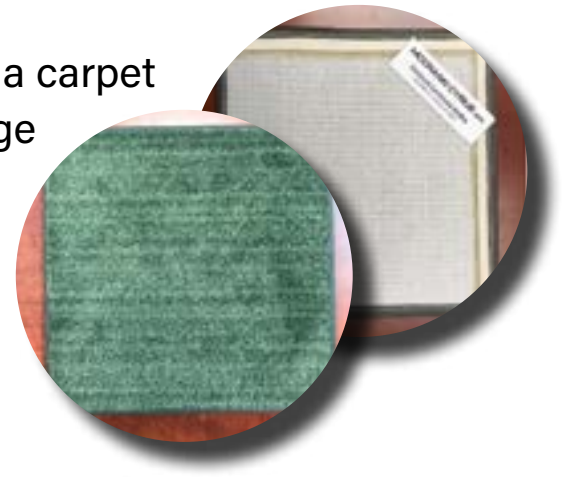

AVAILABLE IN THE SAME COLORS AS FRINGE #2

COMMERCIAL EDGE FINISHING

REINFORCED BINDING

Reinforced binding helps to prevent the edges of a carpet from coming apart in higher traffic areas. This edge finishing option is perfect for high traffic spaces such as schools, hotels or office buildings and comes with a 1 year warranty.

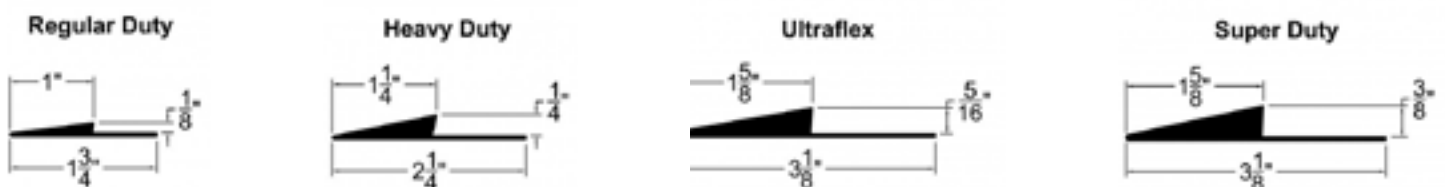

ADA COMPLIANT VINYL RAMP EDGING

Vinyl ramp edging or "nosing" is used on mats and area rugs in commercial or heavy traffic areas. Keeps corners from curling and allows things to be easily rolled onto your carpet. Helps prevent any tripping hazards and is available in a variety of profiles and colors to suit any application.

PROFILES AVAILABLE

AREA RUG UNDERPADS & BACKINGS

The top 5 reasons why you should purchase a rug pad:

1. Create a safer environment by reducing wrinkles and slippage of your rug.
2. Extend the life of your area rug.
3. Protect against color transfer, marring and staining of your flooring.
4. Add comfort and cushion to any area rug.
5. Vacuum your rug more easily.

DURAHOLD

THE ULTIMATE NON-SLIP UNDERPAD THAT OFFERS FLOOR PROTECTION AND COMFORT CUSHIONING

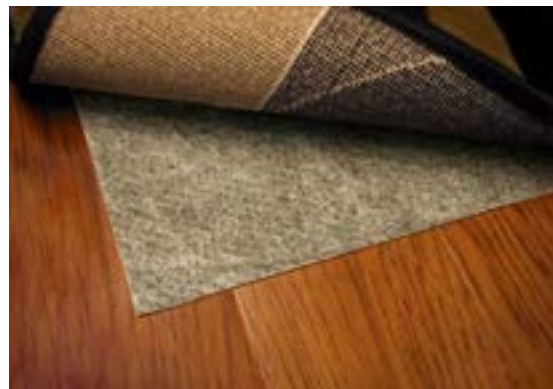

- Used to prevent carpets from moving on hard surfaces.
- Synthetic fiber cushion helps stop carpet from moving off underpad.
- Protects floors from color transfer or scratching from carpet backing.
- Provides good cushioning and is 1/4" thick.
- Hypoallergenic.
- Rated for use on radiant heat floors.
- Natural latex backing to grip floors.
- Available in rolls or cuts to fit any rug size.

ALL-N-ONE

ECONOMICAL, ALL PURPOSE, ULTRA-THIN, NON-SLIP UNDERLAY

- Used to prevent carpets from moving on hard surfaces.
- Prevents scratching of floors.
- Hand washable and extends rug life.
- Reduces puckering under heavy furniture
- Rated for use on radiant heat floors.
- Constructed from a needle punch synthetic fiber with a natural rubber backing.
- Available in rolls or cuts to fit any rug size.

AREA RUG UNDERPADS & BACKINGS

TEEBAUD

YOUR BEST UNDERPAD FOR AREA RUGS ON WALL-TO-WALL CARPET

- A high performance premium underlay used to keep carpets in place.
- Ideal for carpet to carpet applications and holding runners and small rugs in place on hard surfaces.
- Will not rot, crumble, flatten out or shed fibers.
- Completely odorless.
- Prevents unwanted moisture and mildew buildup.
- Made from two different polyester fibers needle punched together.
- Coated on both sides with a specially formulated, 100% water-based, pressure sensitive dry adhesive that mildly adheres to floors and fibers without forming a permanent bond.

FELT BACKING

- Used to protect existing flooring from a scratchy carpet back.
- Applied right to the back then edge finished for a nice finished look.
- Good for any size or shape of carpet.

RUBBER BACKING

- Used as a non-slip option.
- Rated for radiant heat floors.
- Great for hallway runners and small mats with out a lot of surface area.
- Applied right to the back then edge finished for a nice, finished look.
