# COMMERCIAL MATTING

# OWNING VS. RENTING

Rental mats look sloppy and unsafe

Custom mats look neat and professional

## ADVANTAGES OF OWNING YOUR OWN MCCRANN CYRUS MATS

- Mat purchasing is more cost effective.
- Mat purchasing provides more variety in sizes, colors and quality.
- McCrann Cyrus mats are higher quality and, therefore, last longer.
- Our mats are better for the environment.
- A McCrann Cyrus mat lays flatter and stays in place, reducing trip hazards.
- A proper matting system removes up to 72% more combined dirt and water than rental matting, therefore reducing maintenance costs.

## WHY RENTAL MATS ARE BAD FOR BUSINESS

- Purchase of a mat is often the same cost as renting the same mat for 8 months.
- Rental mats provide a limited range of mat widths, lengths, colors and shapes.
- Dye lots may be inconsistent and not match throughout the facility.
- Rental mats are usually only wiper mats. A McCrann Cyrus matting system has both the wiper and scraper components.
- Rental matting can be dangerous as their corners are prone to curl up while they shift in the middle. This raises your risk of possible liability due to the tripping hazard.
- Purchased matting offers variety, aesthetics and flexibility to suit your specific needs throughout every season. In the summer months, less matting may be required. Does your contract compensate you for these months?

	Number of Mats	Cost Per Mat	Weeks	Total
Rental Cost	5	\$ 5.00 /week/mat	104 weeks	\$ 2600.00
Purchase Cost	5	\$ 160.00	104	\$ 800.00
<b>Savings</b>				<b>\$ 1800.00</b>

# UNIQUE BENEFITS OF THE ***MCCRANN CYRUS SYSTEM***

## **CUSTOM MADE**

Having a custom mat built to your needs means any size, shape, color combination or logo is possible. Enhance your brand or let our trained professionals create a special design for you. All of our entrance systems are designed to fit your facility's traffic pattern and aesthetics. Create a lasting first impression of your company's self awareness and attention to detail while creating a safe entry for every foot that comes through the doors.

## **ENVIRONMENTAL IMPACT**

Our goal is to come up with the right combination of sustainable products with high recycled content. Adding more recycled content is always possible but often this is at the detriment of sustainability. McCrann Cyrus is committed to manufacturing sustainable products for the environment. Our systems have been known to last in excess of 10 years.

## **SAFETY**

The patented McCrann Cyrus System guards against slips, falls and the risk of litigation. Our edging is 100% ADA compliant (meets ADA requirements for safety and wheelchair accessibility).

## **REDUCE MAINTENANCE COSTS**

We offer a wide variety of matting products that can help reduce maintenance costs by up to 50%. Mats reduce maintenance by scraping the dirt, debris and water from shoes to prevent it from being carried into the building. This can also improve air quality.

## **PATENTED CONSTRUCTION**

Years of research guarantees a higher standard that is rated the best in the industry.

# BRANDING & CUSTOM DESIGN

Enhance the welcome and safety of your space.

A custom entryway system can be made to any size or shape, creating a timeless look and a great first impression in any facility.

Showcase your brand by adding your company logo or create a custom, one of a kind design to work with any decor style.

Choose from a wide variety of quality products to get your desired look without sacrificing function.

## Functional Mats That Create a Lasting First Impression

With a custom entryway system tailor made to your needs, you can create a lasting first impression. A custom mat can include a brand or custom design and also be a custom shape to follow the building's natural traffic pattern. Not only will your mat look great, it will also help prevent slips and falls, keep your building clean and reduce maintenance costs.

## Our State of the Art Technology

A world apart from the standard and ordinary surface-printed logos, McCrann Cyrus' CNC technology creates logos with unparalleled detail and clarity. We CNC cut and heat weld your logo right into your custom designed McCrann Cyrus System. Our vast pallet of colour options ensures the integrity of your logo is captured.

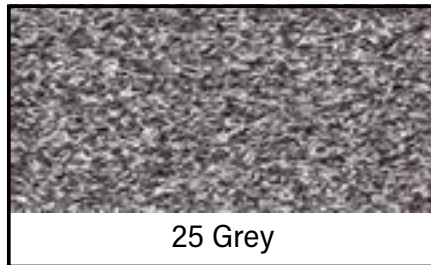

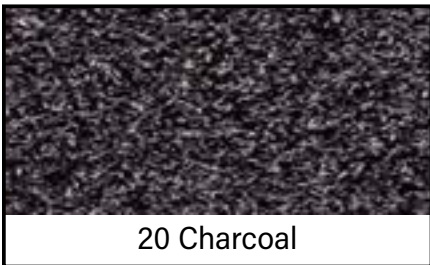

# OUTDOOR Matting Solutions

## CYRUS 9000

Where to use: Entrance ways & vestibules in commercial, industrial and institutional buildings.

Environment: Outdoors directly exposed to the elements, harsh weather and indoors.

# RECESSED WELL Matting Solutions

## BASE SERIES 300

LIGHT TO MEDIUM TRAFFIC AREAS

- Dimensionally stable.
- Easy to roll-up for maintenance.
- Ideal for exterior and interior entryways, foyers, vestibules, etc.
- An economical barrier for mud, dirt and soil deposited by foot traffic.
- The mats feature aluminum hinged framework with cushioned supports at the bottom of each segment.

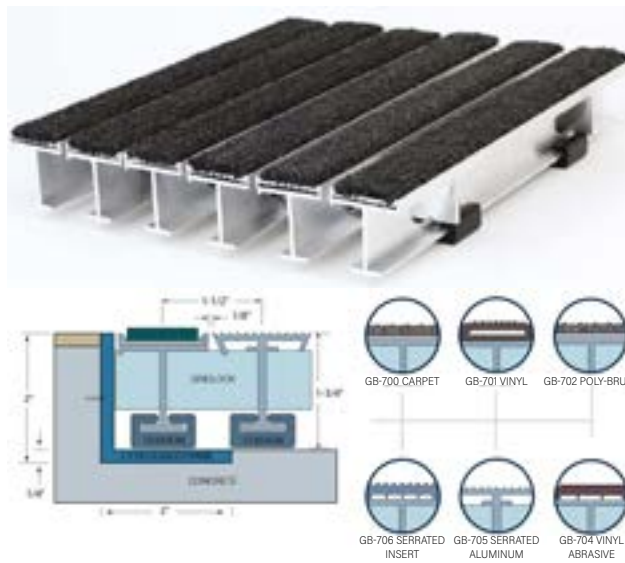

## BASE MAT INSERTS

## BASE SERIES 700

HEAVY TRAFFIC AREAS

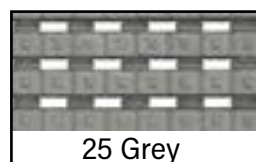

- Our strongest entrance system.
- Strong 1-3/4 in. deep I-beam cross section.
- Ideal for indoor or outdoor and heavy foot and cart traffic.
- Versatile in most recessed well applications.
- An aluminum cross member gridlock keeps the grid in place while vinyl footers cushion foot and cart traffic.

## DEBRIS TRAP

EASE OF INSTALLATION AND CUSTOMIZATION MAKES THIS HIGH PERFORMANCE PRODUCT YOUR CHOICE FOR RECESSED WELL APPLICATIONS

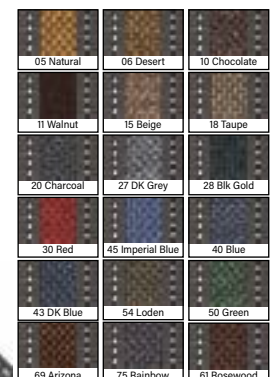

- Superior water and soil containment.
- Dimensionally stable.
- Easy to assemble and cost effective.
- Size: 11 5/8" x 17 5/8"
- Perfect for heavy traffic areas.
- Available in black & grey.

## DEBRIS TRAP 4000

OUTSTANDING WATER AND SOIL CONTAINMENT OF RECESSED MATTING COUPLED WITH CYRUS 4000 INSERTS

- Allows dirt and moisture to fall below traffic level.
- Match inserts to your interior needs.
- Protection against costly dirt clean-up and moisture.
- Recessed/surface mount.
- Dividers available.
- Designed for 1/2 in. recessed wells.

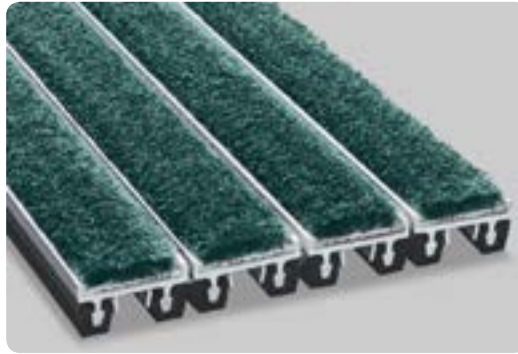

# RECESSED WELL Matting Solutions

## PEDITRED G4

STRONG GRID HANDLES ROLLING LOADS UP TO 1,000 LB PER WHEEL

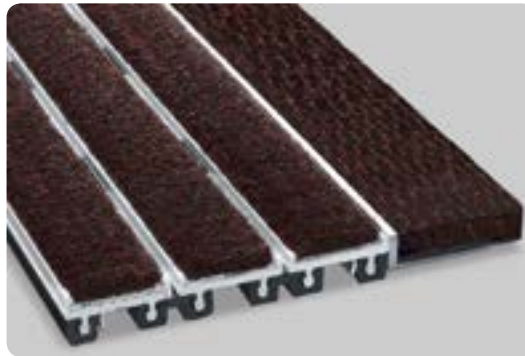

- Smooth rolling surface, solid feel underfoot.
- Grid rolls back for easy cleaning.
- PVC-free hinges and supports.
- 3/4" deep.
- Choose from six effective tread options.
- Available with a variety of frames, with or without drain pans.

## PEDITRED G3

PERFECT FOR HIGH TRAFFIC ENTRANCES

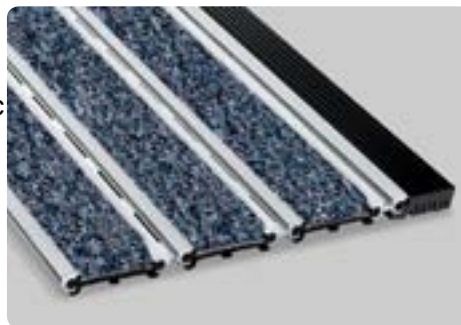

- Easily incorporates into carpet, tile or surrounding floor finishes.
- 3- and 4-rail plank design rolls back for easy cleaning.
- 750 lb per wheel rolling load capacity.

 McCrann Cyrus Mfg reserves the right to make design changes or to withdraw any design without notice.

# SOFT SEATING AREA RUGS

BEAUTIFUL, FUNCTIONAL, INVITING AND WARM

A custom carpet can be made to suite any setting, incorporating design with functionality. We offer full design services to help you create a signature unlike any other.

- Soft seating carpet has been used in office and hospitality waiting areas for years and is now catching on in malls around North America.
- Malls, hotels and offices desire to better serve their clients with comfort and without stress.
- Shopping centers with soft seating areas provide a comfortable place to rest, which allows shoppers to keep shopping longer.
- The alternative to a McCrann Cyrus System is usually highly expensive, lacking in flexibility and causes the mess of gluing carpet to the floor.
- McCrann Cyrus soft seating systems offer a functional option that can be removed, stored and laid out again using existing staff.

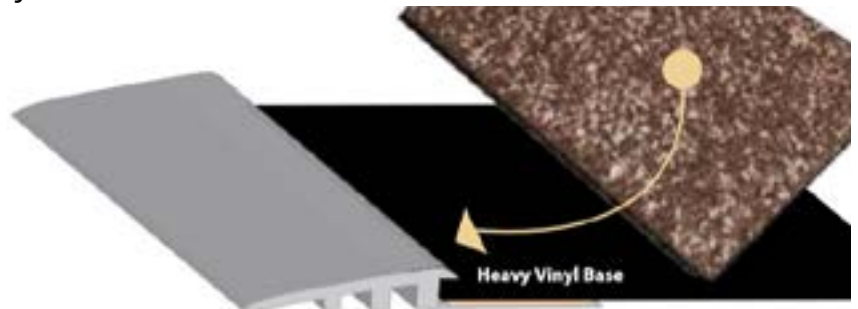

# CARPET TILE TRAY SYSTEM

Create a area rug from carpet tiles using the Tray System

The Carpet Tile Tray system allows you to create an area rug or entry mat using carpet tiles without gluing the tiles to the floor, affording you the ability to relocate the rug without any damage to your existing flooring or to change tiles, as desired.

- Trays are 100% waterproof.
- Showcase your brand by adding your company logo or create a custom, one of a kind design to work with any decor style.
- The trays can be repositioned easily.
- Will not react to any floor and requires no cleanup upon removal.
- Allows implementation of unlimited selection of carpet tiles in many styles and colors.

## TRAY EDGING:

- Edging complies with American Disability Act (ADA) requirements for general accessibility and safety.
- Available in 5 colors and two heights to accommodate most carpet tile selections.
- Made from flexible PVC, we use various types of plasticizers to meet specific needs, such as renewable non-phthalate.

A photograph of a dining room featuring a dark wood dining table and chairs. A large, patterned area rug is placed under the table. The rug has a grid of squares in shades of grey, blue, and brown. A vase with yellow flowers sits on the table. The background shows a window with a colorful abstract painting.

CUSTOM CARPETS  
EDGE FINISHING  
AREA RUG UNDERPADS

# RESIDENTIAL CUSTOM CARPETS

Creating exquisite handcrafted custom area rugs with uncompromising attention to quality and service

Looking for something unique?

McCraan Cyrus offers a vast portfolio of traditional, modern and contemporary designs for you to choose from. Your custom carpet can be made in any size or shape to work in your space. We have the knowledge and resources ready to put to work for you!

# COMMERCIAL CUSTOM CARPETS

*Create an air of distinction in a lobby, office or boardroom with a one of a kind carpet...*

***Commercial spaces need not be generic!***

McCranr Cyrus custom carpets can be designed to suit any setting, incorporating design with functionality. We offer full design services to help you create a signature unlike any other!

# BRANDING & LOGO CARPETS

The aesthetic way to showcase your brand at first glance

Have a carpet made to any size or shape, creating a timeless look that matches perfectly with your design scheme and decor. Choose from a wide variety of quality products to get your desired look without sacrificing function.

Our State of the art technology allows us to be a world apart from the standard ordinary dyed area rugs. McCrann Cyrus' CNC technology creates logos with unparalleled detail and clarity. We CNC cut and heat weld your logo right into your custom designed carpet. Our vast pallet of color options ensures the integrity of your logo is captured.

# MARINE CARPETS

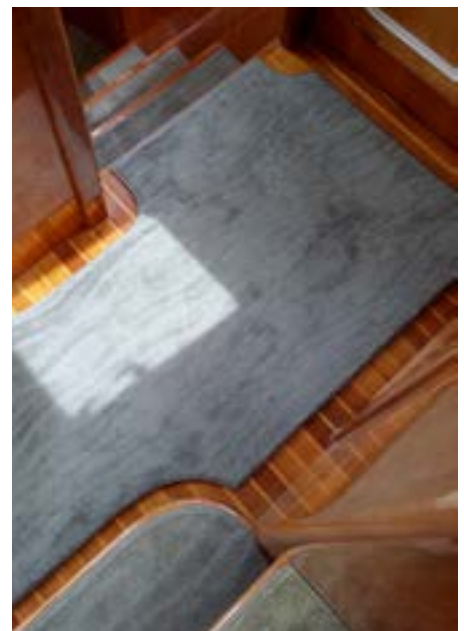

We supply custom, premium quality carpet for indoor or outdoor applications on your boat.

## INDOOR CARPETS

Made from a wide variety of premium nylon and wool carpets in an extensive selection of styles and colors. Add the boat name or a custom design for a unique signature to your vessel.

## OUTDOOR CARPETS

Made from 100% polypropylene carpet that is mold, mildew and UV resistant with an Aqualoc non-slip backing that will not stretch, rub off or harm your boat deck. Any carpet can be created in a custom shape or size, as well as snap-in mats. We use state of the art equipment for cutting and inlaying your boat name or other designs.

# BASIC EDGE FINISHING

## STANDARD BINDING

THE MOST ECONOMICAL WAY OF FINISHING YOUR AREA RUG

- Edged using scotch guarded polypropylene binding tape.
- Available in over 150 colors to match any carpet color and style.
- Very durable, great for residential use.
- Can be used as an edge finishing for carpet base.

## SERGING

A TASTEFUL OPTION THAT CREATES A SOFT, HIGH END FINISH TO ANY CARPET

- Serging resembles a hand-sewn look and creates an elegant finish.
- Available in nylon or wool.
- Great for residential use.
- Available in dozens of different colors.

# DESIGNER EDGE FINISHING

STITCHING STYLE: TOP STITCH  
FABRIC: COTTON  
*Available in 1.5" - 2" top exposure*

STITCHING STYLE: BLIND STITCH  
FABRIC: COTTON  
*Available in 0.5" - 3" top exposure*

STITCHING STYLE: BANDERA  
FABRIC: SYNTHETIC LEATHER  
*Available in 3" - 5" top exposure*

A unique and easy way to tie in the design elements of a room. Designer edge finishing creates a custom bordered look that gives any area rug a timeless design.

Designer binding is available in three different stitching styles: Top Stitch, Blind Stitch and Bandera. We offer lines of cotton, synthetic leather, linen and real leather to give you a variety of textures to choose from. All of these lines come in a variety of colors. You can color match your carpet or choose a color with a nice contrast.

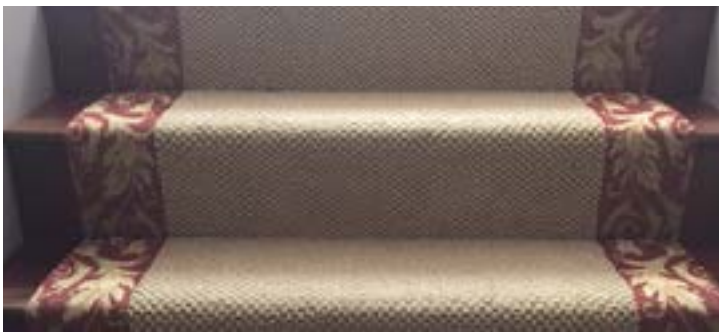

# SPECIALTY EDGE FINISHING

## TAPESTRY EDGING

Tapestry borders give your rug an old world charm as well as create a beautiful focal point in any room.

Choose from either our wide selection of pre-made tapestry borders in a number of different widths, or provide your own upholstery fabric that co-ordinates with furniture or window coverings.

## FRINGING

Refresh your old rugs or add elegance to your new ones with cotton fringing. Fringing dresses up your rug and will bring your old carpet back to life!

Special order fringes are available in cotton, wool or nylon, many colors to choose from.

**FRINGING #1**

NATURAL KARISTAN BEIGE

AVAILABLE IN THE SAME COLORS AS FRINGE #2

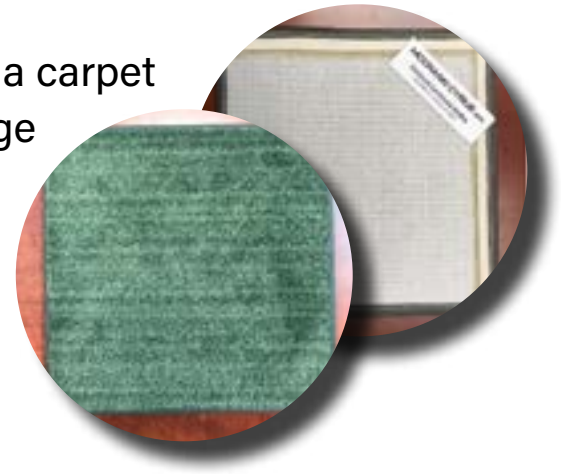

AVAILABLE IN THE SAME COLORS AS FRINGE #2

# COMMERCIAL EDGE FINISHING

## REINFORCED BINDING

Reinforced binding helps to prevent the edges of a carpet from coming apart in higher traffic areas. This edge finishing option is perfect for high traffic spaces such as schools, hotels or office buildings and comes with a 1 year warranty.

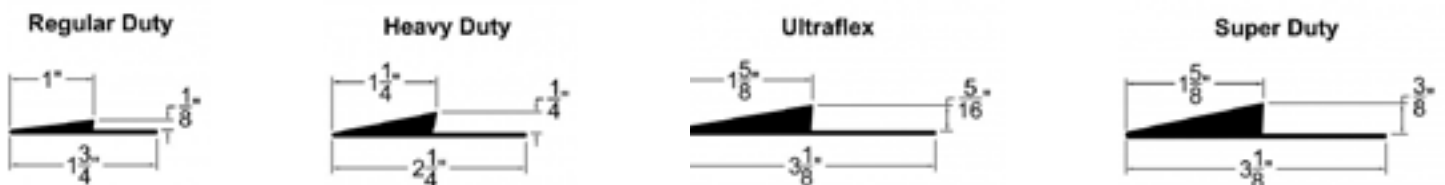

## ADA COMPLIANT VINYL RAMP EDGING

Vinyl ramp edging or “nosing” is used on mats and area rugs in commercial or heavy traffic areas. Keeps corners from curling and allows things to be easily rolled onto your carpet. Helps prevent any tripping hazards and is available in a variety of profiles and colors to suit any application.

## PROFILES AVAILABLE

# AREA RUG UNDERPADS & BACKINGS

The top 5 reasons why you should purchase a rug pad:

1. Create a safer environment by reducing wrinkles and slippage of your rug.
2. Extend the life of your area rug.
3. Protect against color transfer, marring and staining of your flooring.
4. Add comfort and cushion to any area rug.
5. Vacuum your rug more easily.

---

## DURAHOLD

THE ULTIMATE NON-SLIP UNDERPAD THAT OFFERS FLOOR PROTECTION AND COMFORT CUSHIONING

- Used to prevent carpets from moving on hard surfaces.
- Synthetic fiber cushion helps stop carpet from moving off underpad.
- Protects floors from color transfer or scratching from carpet backing.
- Provides good cushioning and is 1/4" thick.
- Hypoallergenic.
- Rated for use on radiant heat floors.
- Natural latex backing to grip floors.
- Available in rolls or cuts to fit any rug size.

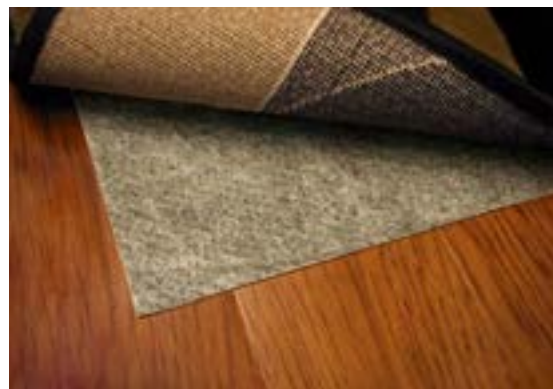

---

## ALL-N-ONE

ECONOMICAL, ALL PURPOSE, ULTRA-THIN, NON-SLIP UNDERLAY

- Used to prevent carpets from moving on hard surfaces.
- Prevents scratching of floors.
- Hand washable and extends rug life.
- Reduces puckering under heavy furniture
- Rated for use on radiant heat floors.
- Constructed from a needle punch synthetic fiber with a natural rubber backing.
- Available in rolls or cuts to fit any rug size.

# AREA RUG UNDERPADS & BACKINGS

## TEEBAUD

YOUR BEST UNDERPAD FOR AREA RUGS ON WALL-TO-WALL CARPET

- A high performance premium underlay used to keep carpets in place.
- Ideal for carpet to carpet applications and holding runners and small rugs in place on hard surfaces.
- Will not rot, crumble, flatten out or shed fibers.
- Completely odorless.
- Prevents unwanted moisture and mildew buildup.
- Made from two different polyester fibers needle punched together.
- Coated on both sides with a specially formulated, 100% water-based, pressure sensitive dry adhesive that mildly adheres to floors and fibers without forming a permanent bond.

---

## FELT BACKING

- Used to protect existing flooring from a scratchy carpet back.
- Applied right to the back then edge finished for a nice finished look.
- Good for any size or shape of carpet.

---

## RUBBER BACKING

- Used as a non-slip option.
- Rated for radiant heat floors.
- Great for hallway runners and small mats with out a lot of surface area.
- Applied right to the back then edge finished for a nice, finished look.

# SUSTAINABILITY

## WE ARE COMMITTED TO THE ENVIRONMENT

McCraan Cyrus is continually looking for new and innovative products. Our goal is to reduce our overall impact on the environment by incorporating as many green initiatives as possible. Many of our products are currently manufactured with various levels of recycled content taken from both post industrial as well as post consumer recycled material and our manufacturing facility embraces all environmentally friendly protocols and recycling programs. We also work diligently with the carpet manufacturers to utilize their recycle programs.

- McCraan Cyrus Matting Systems can last between 5-10 years and include a 1-5 year warranty, which keeps our mats out of the land fill up to five times longer than economy matting.
- Our matting systems contribute to improved indoor air quality by trapping dirt and dust without using energy, manpower or cleaning chemicals.
- McCraan Cyrus matting systems may contribute to LEED building certification under the Material & Resources, Indoor Environmental Quality or Innovation and Design Process categories.

LEED, or leadership in energy and environmental design, is changing the way we think about how buildings and communities are planned, constructed, maintained and operated. LEED works for all buildings from homes to corporate headquarters at all phases of development. Projects pursuing LEED Certification earn points across several areas that address sustainability issues.

### POSSIBLE LEED CREDITS

- IEQ Credit 4.1 (1 point)
- IEQ Credit 4.3 (1 point)
- IEQ Credit 5 (1 point)
- MR Credit 4 (1-2 points)
